

FIRE!! MOSTRA - Conditions for film entry

24th edition - 6th to 16th of June 2019

The **FIRE!! Mostra** is the first LGBT film festival in Spain: established in 1995 by Casal Lambda, in Barcelona, it addresses affective diversity in its broadest sense through a careful selection of **feature films, documentaries and short films**. A selection of **art-house** cinema and an **educational approach** are its main characteristics.

Throughout **two weeks at the beginning of June** - mainly at the French Institute but also at other different indoor or open-air venues in the city -, a wide range of public is invited to enjoy this Barcelona cultural landmark, with stories and testimonials of free people, creators who break barriers and fighters for human rights, all of whom help with love to build a fairer and freer world.

The **festival's name** is a tribute to the late 20s New York magazine of the same name, **FIRE!!**, led by the black gay writer Richard Bruce Nugent, portrayed in one of the most iconic films of the festival, **Brother to Brother**, which we screened a few years ago.

Categories: feature films, documentaries and short films.

Important: the film should not have been projected at least in **Barcelona** before the date of the Mostra FIRE!!

The festival concedes three Honorary Awards, attributed by the festival directors:

- Best Feature Film
- Best Documentary Film
- Best Documentary Film

Deadline for the sending of the screeners: 1st of March 2019

You can send them:

- **With a good resolution online link** (Vimeo, etc.) sent to mostra@lambdaweb.org
- Or you can use **FILM FREEWAY** or **FESTHOME**.

Please join the following information: Full title of the film, Category (feature, documentary or short film), Name of the director, Year of releasing, Country, Duration, Original language, Languages of subtitles available, Synopsis, Available formats for screenings, Name of the person responsible for festivals in Spain, mail and telephone.

Copies formats for projections: 35mm, DCP, Blu-ray, Betacam, HDcam, etc. (no DVD).
